# MARVELOUS "MARKY" PERFECT COCKAPOO PUPPY!

Just 8 Weeks!

This darling, super-friendly and tiny 8-week puppy is the perfect Cocker Spaniel + Poodle! Adorable little face, big Spaniel eyes, curly coat and fabulous gray patches.. Gorgeous!! He's only 5 pounds now, and we think he'll grow to small Cocker size.

Marky is simply adorable!! He loves to romp and play silly puppy games!! (But skip the squeekies -- they can scare this baby a little!)

Marky's a super-snuggler too!! He's been happiest when he's being cradled in your arms like the baby he is. Marky is a smart little guy; you'll love teaching him all he needs to know to become the perfect adult companion so he can go everywhere with you.

If your friends and family think you have to go to a breeder for a puppy like Marky, tell them to think again! They will be amazed and delighted that you saved this incredibly cute 2-month Cock-A-Poo puppy at your local animal shelter!! (Yes, you can adopt any age, size, breed, color, dogs, cats, bunnies, etc. from our crowded shelters!)

You'll love playing, snuggling, and going visiting with Marky, and introducing him to everyone. Please come adopt this adorable little sweetie. Marky is instant forever love!!
