Animal Shelter **DOG** of the **WEEK**

FABULOUS, FLOOFY-EARED "FERN"

Adorable, teensy 5-lb. Fern is pure delight!! She is a wee 4-month baby and will likely be less than 10 lbs. at adulthood. She is the perfect size to take with you EVERYWHERE!!

Little Fern is a bit timid when she first meets you – the shelter is a noisy, big, scary place for such a tiny baby!!

Once she warms to you she starts wiggling (so darn cute!!) and wants to cuddle and snuggle in your lap, then **PLAY, PLAY PLAY!!** Of course!!! She's a **PUPPY!!**

When you leave her, she will bark at you to come back and play some more. Fern is a lap-sitter and loves to cuddle too! This little girl craves human interaction – being with you makes her so very happy!

Her beautiful face with her adorable big brown eyes and her big floofy ears will capture your heart!

Little Fern is a great choice as your new family member. Children in the home should be calm, since Fern is so delicately tiny. Please come meet this beautiful girl –you'll love her and want to take her home!
